

DO YOU ENJOY GOOD HEALTH?

Good health, like success in any line of endeavor, depends on a chain of many things, some of which seem very trivial in themselves.

And if you are willing to see that these things are done regularly you can in all likelihood enjoy the best of health.

Regular meals, proper food in proper amounts, exercise, bathing, pure air, regular hours of sleep—these are a few of the necessary things about which your physician can give you invaluable advice.

It is easier and cheaper to KEEP well than to get well.

Follow all sensible rules of health but if despite your care, sickness occurs, consult the physician.

DOG TAX LAW ENFORCEMENT Every person who owns or harbors a dog that does not wear a dog tag is liable to arrest and on conviction will have to pay a fine of \$25.00. Sheriff Boone after a long season of notification and warning those who have neglected to comply with the requirements of the law in this matter has come to point where patiences must be enforced.

He has appointed a deputy for this special work and this officer is something more than a "dog catcher" for he has the authority to arrest the owner or keeper as well as take the untamed dog. This officer began work last Monday and his first day's record was four dogs. One arrest has been made to date. The law will be strictly enforced. It will be cheaper to pay the tax and tag the dog, if you have one than to lose the dog and pay the fine.

SOAP AND SOUP Soap and soup are new ingredients in the prescription for the salvation of souls just issued by Brigidier Samuel Withers, Divisional Officer of the Salvation Army in Ohio. "We are advocates of the idea of our founder, General William Booth," declared the officer. He believed that the way to help those most in need of help was to go down to them and lead them up rather than call to them from the heights. It was based on a belief that the first step toward the salvation of a hungry man's soul is to satisfy the craving in his stomach. The proper preface to a clean spiritual life is a body introduced to soap and water.

BOOSTERS FOR THE SALVATION ARMY Cardinal Gibbons of Baltimore says: "Its splendid self-sacrificing work not only during the world war, but for years prior thereto, has endeared the Salvation Army to everyone. The late Pres. Roosevelt said: 'I always had a warm spot in my heart for the Salvation Army. What appeals to me is their simplicity and genuine practical Christianity. Common Clay People. They can always depend on my support.'

HIGH COST OF PALMER Attorney General Palmer has asked Congress for a deficiency appropriation of \$318,294.25. A short time ago Mr. Palmer announced that he had closed the campaign against the high cost of living as the expenses of the Department of Justice had to be reduced \$200,000 to avoid a deficit. He stated then that he did not wish to appeal to Congress for more funds.

Howard E. Fier, special assistant to the Attorney General, told the Senate Committee on Manufactures recently that of the 1,500 manufacturers apprehended by the Department of Justice only 350 had been brought to trial and of these only 25 or 30 offenders had been jailed.

IN THE GOOD OLD SUMMERTIME 35,000 babies and their mothers will receive a ten day outing at The Salvation Army Fresh Air Farm the coming summer. This is what a part of your money will go for. THE WATER SITUATION Mr. Moore of Indianapolis a hydraulic engineer has been going over the water supply situation in Wauseon checking up Engineer Sherman's figures and going over the various plans proposed to secure an adequate water supply for the village.

Mr. Moore's report corroborates the figures of Mr. Sherman and shows that with the money available the Bean Creek project is out of the question for the present. Basing their action on Mr. Moore's figures, we are informed that the Water Works Board has determined to follow out a plan which while its cost will come within the limits of the funds available will at the same time assure to the village plentiful supply of pure water at all times. The plan outlined is to construct a filtration plant (not an up-ground reservoir) near the present water works filtered water from the big ditch will be pumped into the city mains during the period when the ditch is flowing an ample supply of the surplus of filtered water will be fed into one of the wells not now in use. Experience has shown that water thus fed into this well runs away to the natural underground reservoir or basin from which the present wells are fed. During the dry periods water from the wells will be pumped into the city system. The plan, statistics, engineers reports and past experiences with the present wells all indicate that this plan will insure an ample supply of pure water at all times and insure ample water supply in case of fire.

We feel that the Water Board are exercising good judgment in this matter and that they are fulfilling their duties they were elected by the people to perform.

Then again it is entirely under their control and they are acting under the advice of the best engineering experts obtainable their own best judgment and for the best interests of the citizens of Wauseon.

CANDIDATES TO BE NOMINATED At the August primaries all county officials with the exception of the County Auditor whose term has been extended, are to be nominated. June 11th is the last date for filing candidates petitions with the Clerk of the County Board of Elections. Republican candidates who have been announced to date are as follows:

Charles Leist for second term, Landis Ford of Gorham, John M. Chamberlin of York.

Judge of Common Pleas, Fred H. Wolf for second term.

Judge of Probate Court, A. M. Barber for second term.

Recorder, R. E. Bernath, second term.

Recorder, Orlo Whitaker of Dover. Committeemen for each of the 25 precincts in the county will be chosen at the August primary election. It is of utmost importance that the petitions of candidates for committee be filed before June 11th.

DELTA BANK ROBBED At about 10 a. m., Thursday seven men in a high powered automobile drove up in front of the Peoples State Bank of Delta, part of the men stood as guards as others entered the bank held up the cashier and others in the bank at the time collected \$18,000 of the Banks funds re-embarked in the automobile and headed for Toledo. The bank was equipped with a burglar alarm. Sheriff Boone was notified and with deputies started at once in pursuit.

MONEY IN HARNESS

Everybody can earn money, but not everybody can save it. Thousands can make money, which is sometimes not the same thing as earning it, but not many among thousands can keep it, put it in harness and make it work for them. Money grows by saving. It also grows by working. Day and night it works, earning interest, bringing in income. But money must be invested before it can work and that is what this bank does with it, sharing the earnings with the depositor. A Savings Account with the Peoples State Bank is a means for you to get some money in harness to work for you.
